

Robin Denis

Financial & Quantitative Engineering

Paris, France • robin.denis1207@gmail.com • linkedin.com/in/robin-denis-finance/ • github.com/RoJLD

Bouygues Telecom

2025-02 → 2025-08

Treasury Manager & Full Stack Developer

- Built a Treasury Management System (Python/SQL/VBA, ODBC): saving ~4h/day
- Automated cash flow forecasting and integrated interest rate swap pricing
- Orchestrated ETL pipelines (Dataiku/BigQuery) and automated data quality controls

ALTEN

2026-02 → present

DeFi Quantitative Researcher

- Led the 'CryptoExploration' project: detection and evaluation of asset fluctuations on emerging protocols
- Developed statistical and ML models for pattern exploration and correlation analysis
- Data Engineering: automated on-chain metrics collection (TVL, APY, Volume) via Python

Education

ECE Paris

2021 – 2026

Major in Financial & Quantitative Engineering

Diplôme d'Ingénieur

Key courses: Stochastic calculus & SDE · Financial markets · Operations research & numerical optimization · Applied Machine Learning · Optimal control & Hamiltonian · DSGE models

Capstone project (with EY) — Modeling and management of dynamic hedging strategies in insurance and banking

Classes Préparatoires MPSI – MP

2019 – 2021 · Bourg-en-Bresse

Preparatory Classes MPSI – MP — Mathematics, Physics & Engineering Sciences

Skills: Python · SQL · VBA · Finance Quantitative · Calcul Stochastique · Pricing Dérivés · Machine Learning · Statistics · ETL / Data Pipelines

Certifications: Google Project Management · Business Analyst · Data Scientist · TOEIC (925/990)

Languages: French — Native · English — Fluent (C1) · Spanish — Intermediate (B1) · Chinese — Beginner (A1)

Interests: ♀ Chess · 📊 Quantitative finance · 🧠 Psychology & Discipline · 🖨️ 3D Printing · 💻 Open-source · 🏄 Windsurfing · 🏍️ Motorbike & Mechanics
